Items From Ward 15-A, Kennedy Hospital

I went up "home" to 15-A, Kennedy Hospital Monday and came back to Grenada Thursday and saw a heap. Dr. Cohen, to whom I was assigned, told me in non-technical language that I was getting on OK and was in pretty good shape for all that ailed me, plus my age. I am sure I would have been dead long ago had it not been for Dr. Avent here in Grenada and Kennedy Hospital.

If I ever go there again, I shall miss Dr. Kraus, but at that, am happy for him in that he leaves Kennedy Thursday and takes on duties as instructor at the University of Tennessee medical school.

The only patient there, who was there the last time I was in Kennedy, was quite an old dude who, I think, is a veteran of the comic-opera war with Spain in 1898. He and I were bed to bed. Doctors, nurses and attendants are as good to him as are members of a babyless family to the first baby. But the old man cusses in his sleep. He can cuss in his sleep better than Uncle Robert Hall cusses in ordinary conversation. He must have driven oxen when he was young, from the fluency of his cussing - all in his sleep, remember.

In the opposite corner was a fellow snuff-dipper who lives on his farm between Dyersburg and the river. He was talking about what hell his wife would raise if the water got up and she got out of snuff. Er wimmen are as bad about their snuff as some wimmen are about their coffee, I know what he means. Diebetics will be astounded, as I was, to learn that this fellow used to take 150 units of insulin. This fellow who is a pure-d snuff dipper is like Ed Brunson and Roscoe Fowler - he wont monkey with anything but pure-d Garrett. He eschews sweet snuff, if you know what I mean.

There's a fellow, they call "Preacher" from Mountain View, Askansas. He came in October weighing 102 pounds, now he must weigh 160 for he is the picture of health. Were he a hog I would say that he was "ready to stick and scald". Up there they cut down the fat ones and biuld up the thin ones. He chews Day's Work. His home is up in the Ozark Mountains and is in a good humor all the time. Dont know what his trouble is, but it could have been mal-nutrition.

Also met Mr. Boyette who is head of the Whitehaven (Tenn.) school. I was highly impressed with him and the sincerity with which he tackled his tasks. He voluntarily assumed the instruction of a class of mentally sub-normal kids, you know the kids with lower than average IQ. While the NEED for instructing and helping such kids is GREATEST, most teachers dont want to monkey with them. Tney are like the "stone that the builders rejected" and let us all hope, as Mr. Boyette hopes, that some of them will become the "head stone of the corner."

Nearby was a Scotchman, a Mr. McGinnon who often comes to Grenada seeking business for the Cotton Belt Route. He spoke of Butane Tate and Fred Simmons. I got him to convey, thru his kids, who live in Whittier, California, a message to my "cousins", the Lee Whitakers there.

Then there was a jolly fat fellow from Millington who was there during my last visit, and another fellow who had submitted to the new-fangled method of controlling blood pressure by snipping a nerve or a vein, or something. I know their faces, but did not recall their names.

Foots Clark who, I thought was there permanently, was not there. I guess he is at Holcomb.

Ward 15-A has a new secretary, a Miss instead of a Mrs. Pat Ballas, the technician, is still there, drawing blood from patients and so is Dr. Gendell. Miss Gann is there and so is the former Miss Tribble who has changed her name to Mrs. Mont Somerly. Some other nurses whom I knew by sight, but not by name are there, but they have a new one, the blondEST blond I had ever seen. If a fellow wanted to marry a blond, he would get a real bargain in her. Beth White, my favorite dietician, has received some sort of promotion because I saw "papers"

Readers should recall that, of all I have ever written about Kennedy Hospital and the fine treatment afforded veterans there, I have never said that the government "owed" me, and other veterans who accumulated ailments in civil life, the treatment we get there, and that I have always said, "It's there for you, you might as well get it", speaking, of course to folks, like myself, with honorable discharges.

DR. A. S. HILL HONORED AT HOLCOMB

Graduated 50 Years Age, Served Holcomb 48 Years

All of the doctors of Grenada County, save the few who were absent because of emergency duties to their patients, the members of the Methodist Church of Holcomb and the people of Holcomb and Beat Five regardless of their church affiliations, honored Dr. Archie S. Hill of Holcomb at a combined religious service and reception at the Holcomb Methodist Church Sunday evening.

The pastor, Rev. Roy Lawrence, served as sort of master of ceremonies and, after several appropriate songs by the vested chior and the prayers, introduced Dr. J. K. Avent of Grenada, who made the main talk on the occasion, reviewing the progress that the practice of medicine has made since Dr. Hill received his diploma from the University of Tennessee fifty years ago, in 1902.

Professor W. B. Buchanan of the Holcomb School then arose and, in the name of the community, presented Dr. Hill a handsome electric blanket.

Dr. Hill, called on to say a few words, told that he was a native of Madison County, born in 1874, experienced the usual viccissitudes that are parts of a poor boy's upbringing, taught a few months in a country school, attended French Camp Academy before teaching, nad eventually getting into the School of Medicine of the University of Tennessee for a matriculation fee of $5. He paid $12.00 a month there for room, board and laundry. After graduation in 1902, his mother gave him a pair of saddlepockets and bought a horse for fifty dollars.

Dr. Hill, who married Miss Brock in 1906, moved to Holcomb in about 1904 and has lived there ever since and that's where their five children, men and women now, attended school. Dr. Hill served what are now known as internships in hospitals in Vicksburg and in New Orleans.

At this meeting, honoring Dr. Hill, it was unfortunate that Mrs. Hill, ill at home, could not have been at the good doctor's side.

—New Ford Tractor Here Saturday—

The new Golden Jubilee Model Ford tractor, described as the most modern farm tractor ever built with hydraulic controls and three-point linkage for implements will go on display Saturday in Ford tractor dealer showrooms across the country.

Thomas A. Farrel, President Dearborn Motors Corporation, national marketing organization for the Ford tractor and Dearborn farm equipment, said the model is in volume production at Ford Motor Company's Highland Park, Mich., plant.

"We are tremendously pleased that Ford decided to bring out this entirely new tractor on the occasion of its 50 th anniversary celebration." Mr. Farrell said. "The Golden Jubilee model has been tested and tried for thousans of hours in many parts of the country. It has performed beyond our fondest expectations. We feel the new Ford Tractor will mark another significent milestone in tractor engineering and production by the Ford Motor Co."

This new model will be on display Saturday, January 3 at Oliver-Lilly Tractor Co. at Glenwild.

—Masonic Officers For '53—

Grenada Lodge No. 21 F&AM officers elected to serve in 1953 are:

Edward R. DeLoach, W. M.; Jacob V. Smith, S. W.; Thomas Hollingsworth, J. W.; L. Friedman, Treas.; Bill Whitaker, secretary; Sam K. McCorkle, S. D.; Chas. Leo Rasberry, J. D.; W. W. Philley, Tiler.

A joint installation of officers, with officers of the Order of Eastern Star will be held on Tuesday, Jan. 6 at 7:30 p. m.

While both Florida and Tulsa are a long ways from Grenada, there was a great deal of interest here in the Gator Bowl game on account of the star performance of one of Tulsa's main men, Howard Waugh, formerly star of the GHS eleven.

Like Drew Pearson says, I predict: with the gdrepublicans in office, the honeymoon, if, indeed, it was a honeymoon, for veterans with non-service connected ailments is drawing to a close.

In all fairness, why should I, and those like me, who came out of service as well off physically as we went into service, be the rosponsibility of the government forever? The man who, by virtue of military service, left service worse off IS the responsibility of the government. Understand, please, I personally like the present system and avail myself of it and shall continue to do so, as long as it is legally available.

But back to Grenada and its embroglio about the C. of C. Looks like every day I was away a letter came to me from the C. of C. I may be dumb, but I dont know yet who's who and what's what down there. I called Cap Oliver Wednesday night and Cap himself did not appear to know very much about it. You, the reader, will have to do YOUR speculating and I'll do mine. If you dont know what embroglio is, look it up in the dictionery.

In a world where folks are supposed to work, I think it is both ridiculous and absurd for people to lay off work on the first of the year.

We used to brag on our cat Oedipus. Now we start bragging on our new kitten Tom, who always drags tissue paper with him to his sand box.

Dont you Republicans in Grenada want to have a float in the inaugural parade. Perry Howard, your boss, is asking for contributions on the cost of a $2000 float. Send yours to Perry Howard, 613 E. Street, N. W., Washington.

New Chevrolet Announced By McCormick Chevrolet Co.

A new [illegible] that will create "entirely [illegible]ptions of automotive beauty [illegible]rformance" was promised today by [illegible] McCormick of McCormick C[illegible] Company.

Cliff made his [illegible]t following a meeting with co[illegible]any representatives in Memphis, Tenn. where 1953 plans were revealed ot an enthusiastic audience of dealers from this area.

"When we were invited to attend we were told that this would be one of Chevrolet's most important business conferences," he continued. "This was conclusively borne out by developments. Not only were we shown the most exciting product in my experience as a dealer, but the speakers made clear that the company through its newspaper advertising and promotion would give the model unprecedented backing."

Cliff said the program should answer any doubts about the future of business.

"A company with the marketing knowledge of Chevrolet does not reinvest th etremendous capital required for a program of this nature unless it is firmly convinced of sound sales possibilities," he pointed out. "It is quite apparent from the product that the largest automobile company in the world is anticinating one of its biggest years in 1953."

Although the date for showing the new Chevrolets has not yet been announced, Cliff is already making plans for a display of the car here. He is confident that interest in the new model will draw recrod-breaking crowds to his showroom.

Miss Dorothy Chapman Killed

The huge total of the nation's casualties over the holiday mean more to Mrs. Sam McCorkle than black figures in heavy type, for her own niece, Miss Dorothy Chapman of Madison, Mississippi, was among the number. This young lady, 14 years of age, and an honor student at Madison High School was killed in a car accident Friday night near Canton. She was a granddaughter of Mrs. McCorkle's sister, Mrs. Floyd Chapman of Madison.

The McCorkle family of Grenada attended the funeral which was held Monday in Madison.

1953 ACP Underway In Grenada County

With the farm-by-farm contacts nearly completed in Grenada County, a preliminary check by the PMA county office shows that 692 county farmers have requested assistance under the 1953 Agricultural Conservation Program. This compares with 352 farmers who requested assistance under the 1952 program.

This year, for the first time PMA county committeemen visited each farm in Grenada County. The county is divided into 8 communities and the communities are served by 24 elected farmer-committeemen.

The purpose of these farm visits, according to McElwrath, chairman of the PMA county committee, is to encourage farmers to go over their farms to determine what conservation measures are most needed to help meet production requirements today and keep their land in condition for greater production in the future. Under the 1953 ACP Program assistance will be given only for the most needed practices on each farm.

Present indications are that pond, V & W ditch, basic slag for pasture will get primary attention in 1953.

According to the chairman, the farm visits are resulting in a much better understanding of the Agricultural Conservation Program and the assistance and services available. He expects that the effort will result in a greater concentration on practices of a more permanent nature and greater use of the various services available. Many practices, he points out, require the help of Soil Conservation Service technicians.

Final Date For Reporting Soil Conservation Practices

Mr. McElwrath, Chairman of the Grenada County Production and Marketing Administration Committee, announces that January 15, 1953, is the final date for reporting performance under the 1952 Agricultural Conservation Program. Mr. McElwrath further states that records of the Grenada County office show that there are many farmers who have secured approvals of assistance for carrying out soil conservation practices who have not reported perfromance on these practices. He urges that all farmers who have carried out an approved soil conservation practice under the 1952 program report such practice not later than January 15, 1953. Otherwise, the assistance cannot be granted.

A ve yrsucessful conservation program has been carried out in Grenada County in 1952 according to Chairman McElwrath. The Federal Government has helped to pay the cost of carrying out soil conserving practices on 375 Grenada County farms this year.

Kinsfolk Gather To Honor Mr. Rook

At his 94th brithday dinner last week in Gore Springs, Mr. W. B. Rook was honored by the presence of the children of the family: Mr. and Mrs. Malcolm Rook and family of Columbus; Rev. and Mrs. Knight E. Clark and family of Sardsin; P. L. Rook and family, of nearby, and Maston Rook and family who lives there.

Mr. Rook was showered with gifts and good wishes of friends, neighbors and kinsfolk.

—March Of Dimes News—

A Marcch of Dimes check for $1500 has been received by the Grenada County Chapter of the National Foundation for Infantile Paralysis to help provide care for polio patients here, it was announced today by C. W. Briscoe, Chapter Chairman.

Mr. Briscoe explained that when March of Dimes funds are raised each January, half of the total amount remains with the local chapter and half is sent to National Headquarters to finance scientific research, professional and public education and to provide emergency aid such as that just received.

Although the once-impreenable barriers surrounding polio are toppling one by one before scientific attack the chairman declared, the tide of polio continues to rise higher across the nation, leaving ever-increasing burdens on the chapters of the National Foundation.

"We have in Grenada County," said Mr. Briscoe, "a clear example of how a polio outbreak can quickly exhaust the resources of a chapter. In the 1952 March of Dimes we raised $6634.40. By Sept. 30, 1952, this was all gone and we had to appeal for emergency aid from National Headquarter.

"Once more the nation is confronted by a serious polio problem. During the frist six months of 1952, incidence was higher than during the comparable periods of 1949 and 1950, the worst polio years on record."

The Grenada County Chapter at present is providing funds, in whole or in prat, for the care of 13 patients stricken this year, in addition to others who contracted polio in previous years.

We cando' hot speak the things which we have seen and heard. Acts 4:20

Santa filled the bill for Ed Underwood, who asked for ANOTHER oil well. Ed got telegraphic notice that it had come in, Christmas Day.

Bob Andrews must have got his case of Tichenor's, and must have consumed it in Greenwood.

Sat Nettles did not get a commission, but he got something anyway, a good beating-up.

Grimes asked for a lotta ads and he shore got 'em.

Christmas Eve is a sorter sad day for us - it is the day that we gather up the unprinted Christmas cards, one of our main "rackets", and puf them upstairs for another year. We dont deal in fancy Christmas cards but just the plain ordinary cards for po' folks, who can not afford to pay 2-bits each for fancy cards. This year it is a sad day because, for us, it is the LAST day of 1952, when we bundle up the 1952 issues of the GCW and send them off to be bound into our permanent files.

A fellow is indeed inhuman if, at Christmas time, he is not nostalgic, as I was when both James Chapuis, once our valuable helper, and Lamar Sledge, once our -ONLY helper, and both of them kicked upstairs, came around to offer filictations, were not mentioned. Lamar is now the owner and the editor of the Messenger, Kemper County's only newspaper, while James is the main spring in the Eagle of Oxford.

I reckon one of the happiest experiences I had on Christmas was a visit from James, our former "devil" who brought me some Geo. Washington tobacco. James used to work for us. Both he and Andrew were starving to death on what the GCW was able to pay them. By more or less mutual agreement, James left and got a jojb in Oxford; Andrew stayed on, at a greater salary, and dolne ALL the work that he and James used to do. James, like the "hands" I used to have on the farm, "came in peace, left in peace", and that's the way for folks of good will to live.

Jim Nail and wife got a nice Christmas present, an all-expense trip to and from New Orleans where they went to see Chief Pharmacist's Mate Monroe Nail, who was in port just a short time and wanted to see mama and papa. The elder Nails left on the 26th. Last year they had a similiar trip East to see their son, Sgt. Jimmie Nail. Monroe is their second son.

In a big ad in the Christmas edition of the Carrollton Conservative is this commendation for W. A. Billups: "Rapidly turning cotton farm into cattle ranch; adding more improved pasture each year. It is reported that he buys cattle when prices are low, sells them when prices are high."

In the Christmas edition of the Conservative is this mention of Gu. Barsoome, "excellent job of carrying out his SCS water conservation plan by establishing 150 acres of improved pasture; setting out 40,000 pine seedlings, establishing approved outlet channels and over-fall structures."

I am afraid the Deer Creek Pilot is modest in carrying out its masthead, "Next to the Bible, the Pilot is the best read publication in Sharkey and Issaquena counties". I'll bet the Pilot is BETTER read. I know the GCW is better read in Grenada County than is the Bible, unfortunately as is that statement.

But as we are, here's a check we hate to take - one from "Miss" Maggie Wood of Hattiesburg. I ate up much hot biscuit, preselves and other good things at the Wood home at Oxberry, when I was a boy, to pay up for her for 1,000 years, but she insists that she pay for the gcw.

I'm afraid hard times are about to get back. A Negro just came in to buy some "wall paper". What he wanted was, of course, a bundle of old newspapers, which was the "wall paper" of Hoover days.

I hope Santa Claus brought Lewis Marascalco a thermometer, as Lewis has about "wore out" ours coming across the street and looking at it.

Santa Claus must have come to see Dr. Rayford as he has been dolled up in handsome new suits - two of them, one each day.

Santa Claus came to see me, bringing me the wine, but not the snuff.

Since I have no teeth, I asked Santa for a gizzard several years ago. Somebody, I think it was the late Mrs. Maude Willis, brought me a turkey gizzard.

What with all else she had to do, Mabel may forget to mention that Choppy Andrews from Dayton was here for Christmas and the youngest Cohen daughter from Memphis State was here also.

Mabel and I were privileged to eat breakfast with Dr. and Mrs. Avent Christmas Eve, which was in celebration of their 30th wedding anniversary. Neither of them look and act much over 30, much less having kids nearly 30.

SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

The members of the Holcomb Methodist Church have every right to be mighty proud of their handsome, well-furnished and well-designed church which, I was told, is just about out of debt. This church house would, indeed, do credit to a community much more populous than Holcomb.

Down in Holcomb I have a lot of what I call "cousins", all of them descendents of "Uncle Joe" Williams who himself was uncle of my grandmother. You can, therefore see, that I have no kinfolks there closer than 4th or 5th cousins which, after all, aint much kin.

Uncle Joe, like Dr. Hill who was honored Sunday night, was a country doctor in Beat Five. He was said to be "close" with his money. The tale is that he came riding home one day with a pair of sheep shears tied to his saddle. He had collected the shears for a visit to a sick person. Knowing that Uncle Joe had no sheep, someone asked why he took the sheep shears and he explained, "That was all the po' fellow had."

Holcomb is one small town where I am as much "at home" as Dr. Avent is. I went down there with Drs. Avent, Clanton and F. S. Hill, with Mrs. Avent at the wheel.

Just met the Hoffman family - the crowd that bought out Kresteel - and a nice family. Hoffman has "something". He said the quickest way to success was marrying the daughter of a successful man.

The Dailey family lives next to us in Preacher Lord's house. Folks have been saying they have seven kids. Until Christmas Eve, when the family loaded up for Louisville, I had never seen but two, a little boy and a little girl. Whilst they were loading up I saw and counted 'em. There were nine of them, including the papa and mama. It is the quietest set of folks I ever knew. Mr. Dailey had a message for me from old man A. S. Wathen in Bradstown, Ky. and he delivered it after 3 months that day. Mabel and I stopped in Bradstown on one of our trips and, of course, went to the newspaper office, which is owned by the old man and his children. The old man "snuck" out to where they do their mat casting and drug out the best licker I ever drank, a favorite brand made right there in Bradstown. Going back to the Dailey family, I will say that it seem to be a fine family but how they keep seven kids so quiet, I just dont know.

We broke some sort of record on Friday, the day after Christmas. We stayed open all day, catching up on some job work, but we did not take in as much as five cents, not even selling a ten cent paper to McClain of Duck Hill; not a renewal, not a classified ad. I believe it is the first "blank" on our cash book. We got something "on the books" all right, but no cash money.

Beg pardon for lying. We DID get in a renewal from Joe Pressgrove. Sometime ago, he sent in a letter "saying" he enclosed a check. At the time he forgot the check. Maybe his conscience hurt him, so he dropped one in the cash book Friday.

A handful of folks have indicated they dont want to pay $3.00 for the GCW, or could not afford to pay that much. In new subscribers, we have long since overcome the loss. For example, Brother C. L. Pickle, who is a lamb (ram) returning to the fold dropped in Christmas Eve and got back into the fold.

And, another ram returned is Claud Doolittle of Memphis, who got cut off somewhere along the line.

One of my many rich cousins, Louise Hall Mohead of Little Texas came in, got her arrears in current shape and some time ahead.

It's a wonder I am so po', having so many rich cousins.

Speaking of "returning" rams, here's another one on the same page - Capt. John Butler of Orlando, Florida.

These rams stray off, but eventually return to the mailing list. Some of these days, folks will begin to realize that they should pay their dues, when due.

Butch McKnight has been reading the GCW because, when he sent in his check recently, it was made out for $3.00.

Pop Saunders of Birmingham called me up Friday night, at the time I was about to close the office, to tell me Toledo Yeager, Tom Nash and Bailey - also for Pop, I take it. He asked to be remembered to all his many Grenada friends and Mrs. Pop chimed into the conversation. Pop is one of our most ardent readers. At the time of our talk he had not got to his Santa Claus letter but did so, I am sure, before he laid the paper down. I think a heap of Pop and Mrs. Pop.

Frank House extracted a large purse, fumbled around among the 20s, 10s and fives until he got a hold of three ones and paid his dues before Christmas. Hope Mr. Eddie Davis brought him his present.

The price o fevery prescription compounded by us is determined by the cost of the ingredients plus a nominal fee for professional services. This is the only fair and square method for figuring the cost of any prescription. It assures you that no corners are cut in order to cut a price, and it also acts as a brake on unnecessarily high prices. Beginning a New Year

In beginning this, the new year, we are doing so without making any phenominal promises and without announcing any phenominal changes.

Our beginning does not promise to be spectacular in any way, nor do we promise any spectacular improvement during 1953.

I always liked the contents of a little placard in Grenada Bank which says something like this - Doing the best you can with what you have, is the best rule of life.

That's what we have done and that's what we hope to do in 1953 - do the best we can with what (little) we have.

In 1937 we adopted as our slogan, "Local news, a specialty; other news only in an emergency", and that continues to be our slogan.

Our facilities are far too inadequate for us to seek to compete with radio, wire services, television and such modern day equipment and services. We know our own limitations and are not jealous and envious of others who possess more modern things.

I think, during the years, I have learned at least something of being a "country" editor and I dont aspire to be anything else, and would not swap my job with Meeman or Col. McCormick.

During 1953 we promise you one thing only - to do the best we can with what (little) we have.

REdistrict The County

The laws of the State of Mississippi very wisely make provision that the county board of supervisors, the legal body most close to most citizens, shall have wide powers and wide discretion to use those powers.

Among the duties and powers vested in the board of supervisors is that of REdistricting their county when conditions, especially those having to do with the movement of people and the movement of taxable wealth, warrant a change of the beat lines. Such changes can be made at any time changes are warranted and with the unanimous consent of all of the 5 supervisors.

This newspaper has pointed out from time to time that our several beats, supposed to be equal in population and taxable wealth, are sadly and conspicuously UNequal. It is hardly necessary to point out again the various elements that make up the INequality.

I dont believe there is a supervisor, now serving, or a supervisor who HAS served in the past 50 years who will fail to agree with us that our beats ARE terribly UNequal.

It, therefore, become the DUTY of the present supervisors to correct the mistakes made 80 years ago, back in 1870, when the county was formed and the county subdivided into beats.

The theory of our set-up is that the board of supervisors shall look after the best interests of the COUNTY as a whole, and not have each supervisor look after the interest of "MY beat".

I dare say that this board, faced with the problem of separating the county into 5 equal beats, would not do, as their predecessors of 1870 did: put 96 voters in one beat and nearly 1500 in another, or put 86 percent of the taxable wealth in one beat and divide the other 14 percent among the 4 remaining beats, nor would they make one beat out of an almost barren ridge between two rivers. (That is what Beat 3 now is.)

Eventually, the people of the county - when they get thoroughly aroused about the UNequal set-up - will vote for a change.

Why not, then, suggest that the supervisors, who should know their duties and responsibilities, make the necessary changes on their own volition.

I am appealing ot the supervisors who are just bound to see that the present set-up is distinctly and unquestionably very, very UNequal.

Good Time To Get "Even"

New Year is the traditional time to "get even", or to "pay up."

Likely I will be "up home" at Kennedy Hospital this week. Dorothy, who has been "off" for a month or so, has consented to come back to help Mabel and Andrew for at least a week.

Among her duties will be "getting the books straight." She will get out bills of amounts owed us and is authorized to pay anything that the GCW owes. A small part of what is owning us has been "going on" sometime. New Year is an excellent time to pay up and start again.

Dorothy, we hope, will get around to mailing out notices of subscription delinquences. New Year is an excellent time to get such matters straightened out.

Hearing others talk and compain of "bad collections" I never could join in with them. By and large, we always have had pretty "good collections". The GCW makes a rule of paving what it owes promptly and that practice on our part must have inspired those who owe us to pay promptly. Anyway, we have only a FEW folks who owe and owe us, just a mighty few.

Must Be Doing A Fair Job

We feel that we must be doing a fair job in getting out the GCW.

Fifteen years ago, we started and charged $1.50 a year for the GCW in the county; $2.00 for out-of-county subscribers.

A few years later, we upped the price to $2.00 and $2.50, without the loss of over half a dozen subscribers.

In November of this year, we upped the price to all subscribers, wherever located to a straight $3.00 rate. Before the raise, we tried to pave the way by showing that the "dog of inflation" had bit us like it had all of the rest of folks and business enterprises.

While the raise in price has, indeed, scared away a few subscribers, the number could be counted on the fingers of one hand, and not having to count the fingers but once, by and large the vast majority of folks just bring in or send in three dollars. NOT once have we had to send back a check to be raised to the proper amount. Evidently, we paved the way so thoroughly that nobody misunderstood and everybody did understand.

This leads us to think that we must be getting out a good "country" paper and that folks like it. For this, we are very happy.

Dear Santa - Please Bring Me . . . . . .

A MERRY XMAS TO ALL FROM L'AUMONIER

With our Yuletide near at hand we are filled with the spirit of love and peace. Christmas of 1952 should have a very special meaning to every American. Our government is passing thru a transition period, let it be our prayer that it will do so, smoothly and safely.

We as a nation earnestly desire that a lasting peace become a reality. Our boys have a right to expect, that in return for their services, the global home front would give peace a fair trial. We must stand solid behind our leaders in their all out effort to consumate such a peace. Our boys who gave their lives stand in that unbroken line of patriots whose deeds of valor have been unsurpassed. We should pay special tribute at this season to their memory and to those loved ones who will receive their bodies for final interment. Those whose loved ones still lie beneath a foreign sod we might comfort with the thought:

"It always has been, is, and
will be, thus;
A fact that time or distant
cannot dim
That God is ever just as near to us
As we are near to Him."

Let us dedicate the year 1953 to cooperation, that the service of our hearts and hands, united in a single purpose for greater strength, will merit the blessings of our eternal God. Our American child is our only guarantee of survival as a democracy. Our beloved organiation is pledged in the field of service to our tubercular child. Let us work earnestly this year in our special field of service, not to gain glory for ourselves, but to prove the rights of our organization for further service. If you give your personal service through this and subsequent years you will receive more of life's joy and gladness; more of its peace and cheer; more of its faith and glory, and you will grow richer each year.

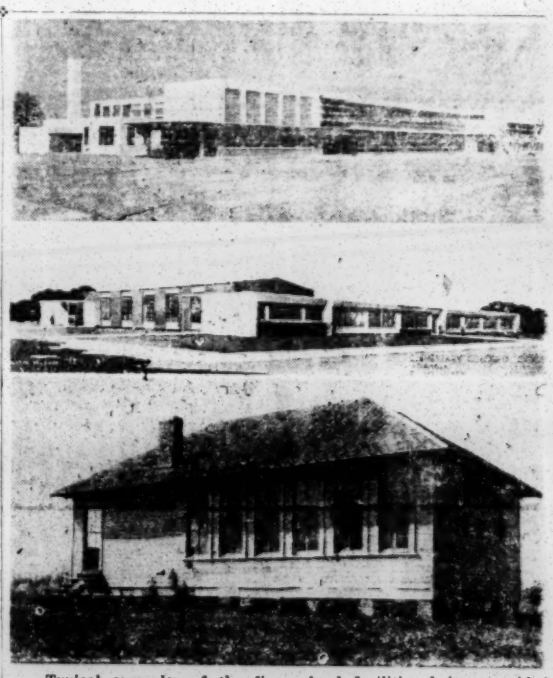
ONE-ROOM SCHOOL RAPIDLY DISAPPEARING FROM SCENE



Typical examples of the fine school facilities being provided Mississippi white and Negro children are two shown above. Top picture shows the half-million dollar Greenville Negro High School. Beneath it is the architect's drawing of a Negro elementary school at Indianola.

Bottom photo needs little explanation. It is an old one-room Negro school in Sunflower county in the Delta. Buildings like this are being replaced with modern structures under the state's building program.

The one and two room school, like the mule drawn plow, is fast disappearing from the Mississippi scene as an increasing percentage of the State's 700,000 white and Negro school children march daily into new and modern high schools and elementary classrooms throughout the state.

More than 3500 modern classrooms, many of them in up-to-date buildings, housing auditoriums, gyms, cafetorias, libraries, laboratories, shops, clinics, music rooms and other facilities, have been provided the children of the various counties of Mississippi since 1946.

Prior to that time, it was estimated that Mississippi had more than 3,000 small rural schools, most of which were one and two teacher Negro affairs in makeshift structures lacking even the bare essentials.

Thanks to more generous state and district appropriations and excellent planning by school officials and architects, approximately a third of these have been eliminated during the past six years.

School districts have spent between $45,000,000 and $50,000,000 for buildings since 1946, according to T. H. Naylor, Jr., director of the department of building and transportation for the Department of Education.

"New and modern buildings may be found in almost every county in the state, says Mr. Naylor.

The Legislature made its first appropriation for school building construction in 1946. Since that time, a total of $10,000,000 has been earmarked for this purpose. School districts, meantime, have provided approximately $30,000,000, making a total of approximately $37,000,000 in state and district funds. More than $8,000,000 has been spent by school districts which received no assistance from any source.

Despite the stepped-up tempo of school construction, a 1951 survey shows that 148,000 children were housed in unsatisfactory buildings, that there were 1,409 one-room schools in Mississippi, 960 two-room schools, and yet between 1500 and 2000 classrooms were not more than 50 per cent occupied.

The reason for this, researchers found, is the fact that rural population is decreasing in Mississippi while urban population is on the increase. "Therefore school buildings are still urgently needed in some places," Naylor says, "while in other places extreme caution must be used not to spend tax funds for buildings that might have empty classrooms."

At any rate, the taxpayer can be assured he's getting his money's worth. The cost of school buildings in Mississippi has probably been the lowest of any state in the nation. Many good buildings have been constructed at a cost ranging from $6.00 to $7.50 per square foot, with the best buildings ranging between $7.50 and $10.00, compared to a national average of between $11.00 and $14.00 per square foot. Naylor attributes much of the responsibility for this economical construction to the fine planning done by architects designing our schools.

Many excellent buildings have been provided during the past year for children of both races, with facilities equal in all major instances.

Canton, for example, has a modern Negro elementary school building which cost $42,615. It contains six classrooms and a combination auditorium-assembly room.

The East Yazoo Negro High School near Benton, built for approximately $60,000, contains 12 classrooms, office and toilets, a far cry from the one room shack with only outside facilities.

The Delta has made remarkable progress in providing facilities for its heavy Negro population. Leflore county has several excellent schools at Slaughter, Morgan City and Greenwood, the latter with a half-million-dollar High School for Negroes which stacks up with the best of its kind in the nation.

Washington county also boasts some fine Negro schools at Hollandale, Lakeside, Leland and Avon, and Greenville's new Negro Elementary and Negro High School, as up-to-date as a 1953 coin, will rate with the best school buildings to be found in the country.

Between 1500 and 2000 classrooms have been provided for Negro children, indicating more progress in this respect during the past four years than has been accomplished in the past half century.

You'll see the evidence of them at Clarksdale, Vicksburg, Maben, Ackerman, Kosciusko, Forest, New Albany, Columbia, Macon, Bassfield, Hickory, Waynesboro, Monticello, Crystal Springs, Lambert, Hattiesburg, Laurel, Biloxi, Moss Point.

Marks, Pascagoula, Ocean Springs, West, Cleveland, Philadelphia, Noxapater and in the Capital City, which recently has completed three fine structures for its Negro children.

Columbus and Natchez also have excellent school buildings under construction, and contract was recently awarded for a $600,000 Negro High School at Gulfport.

But emphasis on school construction is not entirely on Negro facilities. Excellent elementary schools have within the past four years been erected in more than 50 Mississippi communities, and a number of excellent consolidated schools for whites have been erected throughout the state's rural areas.

The shifting population from farm to the city is creating a serious problem for many of the state's communities.

Along the Mississippi Gulf Coast, war activities at Keesler Field and the Pascagoula shipyards have caused a tremendous increase in school population, a problem which is being alleviated partially by a Federal grant of more than $3,000,000.

Many other urban centers are suffering with similar growing pains, Jackson being one of the glowing examples.

But with continued planning, increased interest in providing needed facilities, and financial assistance from state and district sources, Mississippi's youngsters may look forward to a school which offers them the best facilities to be found anywhere.

January is derived from Janus, an ancient Roman deity who had charge of the gates and doors, hence, the beginning of things. He was represented by two faces, looking backward and forward. We remind our readers of old Janus as we begin today, to peer through the mists of the new year, and before we turn our one face toward the future of a new year. Because perhaps it would be well for us to take a long last look at the year just passed and to extract from our experiences of 1952, all the blessings we received and renew our appreciation and thankfulness for another year of life, and for the great privilege of witnessing the sunrise of another new year.

Christmas is now one week away - the holiday is over, and now we return to the common place things such as work, money, and the December bills. Our natures always change at Christmas time. We are cheerful, charitable and loving toward everyone, and I know you have resolved with me, that we shall hold on to our affectionate and tender spirits toward others for as long as we can. We say "as long as we can" because we know the world is so full of Satan's little imps that will be riding on our shoulder again as soon as we move our minds around from the beautiful holiday just passed toward the great unknowns of the new year ahead, that real soon now we will be scowling and scolding again. Old Janus having two heads was able to look back upon his yesterdays without detracting from that "forward" look we are urged to have. It isn't good to live in the past too much, but we have always felt the future would be so much better for us if we would take time to reach back in the past for the experiences we had upon which we could base our judgment and our course for the future. Many people never seem to learn anything from experiences, or else they never use their experiences for guideposts. They never learn anything from any one else, but rather they want to explore life in all its complexities on their own and will tell you they want to find out about things for themselves. Of course the person who does this will stump their toe many times on the very same obstacles that you and I have encountered, and we wish we might warn them before hand. So today before we wrap up the bundle of 1952 experiences, tie the string of memory around them, Ada and I will reliye those many pleasant days we spent in Grenada, Mississippi during the old year and we'll remember most tenderly some grand and gracious people we know down there. Here are a few: We'll remember Viola Quinn because she entwined her goodness around us both, bless her. We'll remember Strick and Cindy Stricklin whom we could always FEEL were close to us - spiritually, and as next door neighbors. We'll remember Mr. and Mrs. Henry J. Ray for their human qualities, their courtesies. We will remember Markolita Long as a friend so true, and Minnie Woods, because of her humility of spirit and appreciation fro friends; We'll remember Walter Hill and Frances Felts, and their two fine sons, because of their wonderful hospitality, their cheerfulness, their high ideals. We'll remember Louie and Lucy Angevine as two of the nicest people we ever knew; also Allen and Rosa Mitchell for the same reason; we'll remember Sonny Hubbard and his fine parents because they are the kind of people one loves to remember, and because we too had a boy named Sonny who looked like Sonny Hubbard; We'll remember Orren and Thelma Zoder because they always made us feel at home at their place with their kindness. We'll remember Jack and Corrine Murphey and little Winn as some of the best friends we ever had and we could always feel it when with them. We'll remember all those nice people with whom we worshiped at First Baptist Church, and those at the Methodist - especially Felix Sutphin, one of the Lord's true disciples.

Among my own personal list would be: Marshall Perry, Bill Hyde, Al Gully, John Brewer, Jimmie Todd, Enoch Godbold, Rodney Defenbaugh Ed Jones, W. W. Whitaker, Harry McCarley, Ray Hopkins, Ed Artmon Burt Boyce, Tom King, T. J. Statten, Rogers Parker, Byron Hunter, C. E. Coleman, Jack Sanderson, Clarence Holloman, Chick Lockett, Dr. Bob and Minnie Lee Clanton, Bob and Sudie Vandiver.

We both will remember J. M. and Min' Webb so worthy, so true; we'll never forget Fred White and Margaret, Woody Hanna, Harry Horton, Jack Porter, Mavis Mitchell, Patsy Rogers - all of whom were so faithful and true as co-workers through those many weeks and months.

Many times in the years to come we will turn to that place in our hearts where we have filed away our memories of Grenada, and we'll one by one set out in view these wonderful people we knew and loved in the good year of 1952.

"SEEN, HEARD AND TOLD BY THE EDITOR"

We cannot but speak the things which we have seen and heard. Acts 4:20

In getting "new" preachers, Grenada has indeed hit the jack pot. The Episcopaleans got the Frye family; the Methodists got the Sutphins and the Baptists (without whom the GCW would starve to death) got a very lovely couple, the Landrum family, nice man, pretty and intelligent woman and two handsome boys.

Mabel did not get an ermine coat, but she got a nice pen and pencil set from me and Whyte Jr. and now is all set to take in four bit pieces as Notary Public. As a matter of fact, she did not even EXPECT an ermine coat.

Across the street, I see Preston McLean, who used to me my "wedge hand" at Oxberry. He now lives with Juchheim, and Juchheim, has made a real man of Preston, who used to be sorry when he lived with me. Andrew used to call him "Mister Preston", when Andrew was litfle. The Whitakers and the McLeans were kin, but I dont know whether Preston was an "offshoot" or not. Things like that used to happen.

Ed McCormick came up with a new idea about getting Hoover's meat - rabbits - Ed said go into the new ground where logs have been cut; off flush with a saw pain the end of the cut-off black. The rabbit will then think the black end is a hollow log, run into it and butt his grains out. All you have to do is to pick up the dead rabbit, put him in the pot and soon have "chicken." Ed knows, as he lived under the gdrepublican regime.

Last week, we put in a "saving clause." It was a good thing we did. Brother Rothbert of Ft. Dodge, Iowa had a Santa letter, but he died of a heart failure before his letter was published.

Among the Christmas cards coming in air mail was one from the Krogh gals in Chicago. One of them, Edith, is a red-hedded gal who is the main help of the Association of Railroads, a propaganda agency for railroads in Chicago, and the other, Esther, aonther red head, who was my Favorite WAC during World War II.

Among other cards we got were one from Col. and Mrs. S. S. Barksdale (the latter was my favorite married blonde) from where we dont know. Maybe, Mrs. DuBois, who has their address, can send our best wishes from us to them. They used to live in Ft. Payne, Alabama. God knows where they are now.

I, Mabel E. Whitaker, own the SW¼ and the W½ of the NW¼ of Section 11, Tp 22, Range 2, Grenada County, Mississippi.

Grenada County owns no land in the above described tract except a strip for a public road on the eastern edge of the SW¼ of 11-22-2, for which the county paid me.

Notice, therefore, is publicly made that the road referred to is a private farm road and not a public road which can be used without my oral or written consent.

I am asking Byron Hunter, Clerk of the Board of Supervisors of Grenada County, to acknowledge receipt of a copy of this notice, am asking that he present this notice to the Board of Supervisors at its January 1953, meeting, for the attention of the supervisors; and that this notice be embodied in the official proceedings of the Board.
